

DAY 25 · AI-IN-ACTION · TRACK 1

MONETIZATION ONE-PAGER

Tên / Nhóm: Nguyen Quang Huy | Sản phẩm: P-015 AI Fraud Investigation Copilot

Value Metric đã chọn: HYBRID (official \$/job scenario below) | Kênh: Sales-Led | Ngày: 2026-08-27

Every numeric claim below traces to the official Day25 workbook or named P-015 evidence; 20% is autonomous containment, not 80% package completion.

1 · PRICING

Ngân sách khách hàng

Software / fraud-operations tooling; buyer: Head of Risk / COO; an authorized customer analyst owns final disposition. Commercial recommendation is Hybrid: platform/governance access plus measured usage; the official model below is the pure \$/completed-autonomous-job usage leg.

Chi số	Giá trị	Lấy từ đâu
Cost/Job	\$0.5422/job (~\$14,150)	1_Cost_Job!B66; VND B69
Giá sàn	\$1.6267/job (~\$42,447)	2_Pricing!B7
Giá đề xuất	\$1.75/job (~\$45,668)	2_Pricing!B19
GM	69.0%	2_Pricing!B21
Breakeven	15.5% autonomous	2_Pricing!B33
Containment hiện tại	20.0% autonomous (1/5)	1_Cost_Job!B10; eval CSV

Value Metric + lý do

HYBRID: platform/governance access plus usage. Attribution score 2/10; autonomy score 1/10; no customer causal outcome evidence, and 4/5 local cases require human review.

Chosen unit: one completed grounded investigation package, priced per completed autonomous job in the official cost/pricing case. Evidence reports 4/5 package completion and 1/5 autonomous containment; these are distinct rates. Intercom Fin (\$0.99/outcome) and Zendesk AI agents (as low as \$1.50/resolution) are adjacent anchors, not P-015 customer proof.

Sources checked 2026-08-27: intercom.com/help/en/articles/8205718-fin-ai-agent-outcomes · zendesk.com/service/ai/top-ai-agents/

Các con số

Official model: \$0.5422 Cost/Job; \$1.6267 floor; \$1.75 price; 69.0% GM; 15.5% breakeven autonomous containment; current 20.0%.

Cách neo giá

Anchor: official 70% labor ceiling is \$1.75/job (B14/B16/B11). Proposed \$1.75 is a planning decision, not a market quote; value and floor checks pass.

Mô hình gây khi nào?

If autonomous containment falls below about 12.4%, GM falls below 50% at the \$1.75/job usage price (the official sensitivity table starts at 50%).

2 · GO-TO-MARKET

Kênh đã chọn

Sales-Led only for 90 days; founder-led design-partner motion targets mid-market fintech/payment processors.

Chi số	Giá trị	Lấy từ đâu
ARPU	\$1,050/month	4_Channel_Fit!B5
CAC budget	\$13,043.88/customer	4_Channel_Fit!B9
Deals/AE/day	0.180	4_Channel_Fit!B16
Estimated CAC	\$12,000	4_Channel_Fit!B22
Estimated / budget	0.92x; coverage 1.09x	4_Channel_Fit!B23; derived

Numeric channel evidence: ARPU \$1,050/month; ACV \$12,600/year; CAC budget \$13,043.88; estimated CAC \$12,000; deals/AE/day 0.180. The \$3,000/opportunity input is founder-led planning, not CRM evidence; replace it after pilot funnel data.

Pain Moment

09:00–11:00 after an overnight alert burst: fraud analyst triages high-risk alerts in the existing fraud-operations alert queue/dashboard before manual disposition.

Embedding

Existing fraud-operations alert investigation queue/dashboard side panel. Backend: Kafka fraud_alerts → fraud engine/agent → REST /api/v1/fraud/analyze; live integration is PARTIAL / NOT VERIFIED.

90-Day Plan

	Tháng 1 — Học	Tháng 2–3 — Đòn bẩy	Tháng 4+ — Mở rộng
Kênh	Sales-Led founder-led design-partner motion	Sales-Led paid pilot motion	Sales-Led expansion within adjacent payment-processor accounts
Mục tiêu số khách	2 design partners	2 pilot customers / 6,000 labeled jobs	2 paying customers + 1 adjacent segment
Việc cụ thể	8 fraud-ops interviews; pain notes + security-gap log	Run 2 pilots; instrument completion, autonomy, retries, latency	Standardize procurement pack; multi-merchant processor playbook
KPI đo được	8 interviews, 2 partners, 300 labeled jobs	>=85% package completion; autonomy separate; >=70% blended GM; CAC <=\$32k	2 paying customers; no unsafe auto-action; auth/RBAC + retention closed
AI chịu trách nhiệm	Nguyen Quang Huy + 2 fraud leads	Nguyen Quang Huy; customer owns final disposition	Nguyen Quang Huy + customer champion

3 · EVIDENCE PACK

Missing evidence is labeled with owner and deadline; no customer or production claim is fabricated.

Tài sản	Đã có?	Nội dung 1 câu — hoặc việc cần làm	AI · Deadline
Eval Results (Day21–22)	PARTIAL	5-case local eval: 80% package completion, 20% autonomous containment, 80% human review, 20% grounding failure; not customer evidence.	Nguyen Quang Huy · 2026-09-30
Risk Checklist (Day24)	PARTIAL	Grounding/fallback/redaction evidenced; auth/RBAC, retention, TLS, vendor terms and live deployment remain open.	Nguyen Quang Huy · before pilot / 2026-10-15
Pilot Report	PLANNED / NOT EXECUTED	2 design partners, 6,000 labeled jobs and paired manual baseline; no customer result claimed.	Nguyen Quang Huy · 2026-12-04

Stranger test: NOT YET TESTED (target ≤3 clarification questions). Prepared answers are stated above; pilot evidence remains planned.
